UltraLight™ Sprint 16L photo daypacks

Side-panel access to all of your camera gear allows you to work out of your bag without getting it dirty, wet, muddy or icy

Product Description:

MindShift introduces UltraLight, the lightest photo daypack series ever. Designed for convenient access to gear and spacious capacity for personal items, all accessible without removing the pack. The UltraLight™ Sprint, with 16L capacity, easily converts from a photo pack to a daypack.

UltraLight™ Sprint 16L

Key Features

- Lightest photo daypack with superior construction and materials
- Side-panel provides access to all of your camera gear without taking the bag off and allows you to work out of your bag without getting your harness dirty, wet, muddy or icy
- Dedicated compartment for a 10" tablet or 1.5L hydration reservoir

Additional Features

- Large capacity for personal gear: extra layers, a light jacket, food, etc.
- Integrated tripod/monopod or trekking pole mounting system on front
- Trap door platform allows you to use the entire bag for personal gear
- Seam-sealed rain cover included
- High quality YKK RC Fuse zippers, 420D high-density nylon, reinforced stress points for long lasting durability and strength
- Highly breathable three-layer shoulder straps with daisy chain for additional gear
- Removable webbing waist belt provides stability during extreme activity
- Internal compression strap and drawstring collar maximize capacity and minimize bulk
- Stretch side pocket
- Internal zippered mesh pocket for small items
- Lid closure doubles as a lash point for a large jacket or other bulky items
- Ergonomic zipper pulls are easily gripped with gloves or chilled fingers
- Adjustable dividers for different camera gear configurations
- Adjustable sternum strap
- Side compression straps
